About the trip

Author's travel agency Go to Star invites to Morocco

The jewel of North Africa, this country became the melting pot where the Amazigh and Andalusian cultures meet in the pattern (and the contents!) of the same plate, the orthodox Jewish community peacefully coexists with Muslim, and the neo-Gothic Sacr-Coeur cathedral of cast concrete becomes a gallery of contemporary art.

We will see how in the cities mentioned in Roman chronicles, young IT start-ups, and preserve centuries-old traditions of carpet weaving and embossing. We'll find out what is "Moroccan Switzerland," whether local Jellaba couturiers, and how chefs with three Michelin stars Michelin three-star chefs are shaping the country's new gastronomic country's gastronomic landscape. Let's drink nous nous coffee in the shade of riads and understand what drew European aristocrats, American investors and enthusiastic hippies from all over the world, and why it was here that the most rock ballads of the 20th century were written here.

Morocco
